## The Society

**The History of Medicine Society of Wales** exists to review matters of historic significance to those with an interest in Medicine and allied subjects in Wales. The meetings, held alternately in North and South Wales, include lectures, presentations, exhibits and visits that are of interest to its members. Because of the distances involved, overnight accommodation may be necessary and the Society seeks to make a convivial experience of such occasions. The membership consists chiefly, but not exclusively, of clinicians, medical students, pharmacists, nurses and historians. The Society welcomes anyone who has a special interest in medicine, whether or not they have been professionally involved in the allied professions.
